

THE SMALL SELF-ADMINISTERED SCHEME

A Small Self-Administered Scheme (SSAS) is a type of UK pension in the form of a tax-efficient scheme, exclusively for limited company owners. Why have a SSAS? By switching to a SSAS you can take control of your pension funds and invest them at your own discretion in your business and property, along with many other asset classes, at any age.

WHAT YOU CAN DO

Invest, hold & buy property using your pension
